i don't take time to write reviews very often, but i couldn't pass up the opportunity to share how incredible the information is in this book. i have dated countless men and continue to hit dead ends when all i want is one healthy, long-lasting relationship. i've been told there may be a subconscious factor in my "selection process," but that didn't make any sense to me when many of these men are completely different from each other. frankly, i didn't believe that i had any part in how these men acted or reacted.

reading this book has truly opened the eyes of my heart to understand what's been going on in my dating life. i now understand how my actions – subconscious as they have been all along, stemming from childhood events – have contributed to unhealthy patterns in my relationships.

do i think i'll meet the man of my dreams next week? who knows. but i do know that after reading what robin has written in these pages, i am now looking more objectively at relationships and learning to identify my own feelings and behaviors as healthy or unhealthy. the questions like "why am i not good enough for him?", "what did i do wrong?", or "what's wrong with me?" don't plague me like they

used to. i understand where those feelings are coming from and how i can give myself grace to learn from what i've been through.

i can't thank robin enough for sharing her knowledge with me through this book. it's a must read for anyone who can't understand why love has to be a struggle!

verified purchasei purchased this book not realizing that not even 6 hours later my marriage would end. even in my pain, i kept reading and was able to see all the ways my marriage was over way before it ended. i am grateful for the information and tools provided in this book because i truly believe that i can now avoid years of hurt, anger and regret. i am now empowered to move forward without fear, knowing that i am not broken completely but just have to love myself more than i ever have before. i am going to take the necessary steps to become better for me. and whenever god is ready to bless me with a husband who can love and appreciate me for who i truly am, i hope to be recovered from loving too much and be ready to love him back in a mutually healthy and honest way.fizzbangsharpenner5.0 out of 5 stars most important book i've ever read

do yourself a favour, ladies. read this.

please realise this book is for a broader audience than just battered wives and co-alcoholics. it's also for serial monogamists: women who are unintentionally attracted to busy, challenging, uncommitted men who can't (or won't) give her the love she craves.

learn the problem, face the problem, and heal yourself. god bless. xox

verified purchaseit's a good book if you accept the codependency/addiction model. it does not use any other concepts in psychology and a lot has changed since the 80's. (it was "updated" in the late 90's but that is still over 20 years ago!) there are other books, such as ghosted & breadcrumb, and others that include attachment science that cover this topic really well and also offer more in terms of what to do, not just extra long descriptions of the problem.source : amazondownload your book here
